

An Elaboration of Emmerson's Local/Field Relationship

ANNOTATION

- Local controls and functions seek to extend (but not break) the perceived relation of human performer action to sounding result.
- Field functions create a context, a landscape or an environment within which local activity may be found

LOCAL

Body
Performer
Moment of performance
Human behaviour
Gesture
Isomorphism
Attention
Stimulus
Short term memory
Phrase
Autocentricity

FIELD

Environment
Audience
Transcendental
Non-human behaviours
Texture
Concomitance
Observation
Contemplation
Long term memory
Structure
Allocentricity
